

MILLROCK *Display Cases*

Your Store • Your Style

MILLROCK™ proudly offers quality display cases for every imaginable foodservice need. Whether you need a small counter-top Grab N' Go heated case for your c-store, or a 50/50 combo case for your new dot-com cafe, MILLROCK is your best source for quality and choice. We have dozens of styles... everything from heated to ambient to fully-refrigerated. All our cases are available in choice of size and finish. We make identical cases in all styles for seamless in-line merchandising of all food types. If you don't see it in our everyday offering, we will build it custom just the way you need it.

MILLROCK'S unique value features

- 1 year parts & 5 year compressor warranty

800-645-7625 for more information about any style display case and to place an order.

Combo

Combo cases are favorites for café owners to display biscotti and non-dairy pastry products side-by-side with refrigerated impulse items. Our combination cases are available in many styles and sizes, and split vertical or horizontal to fit your specific need.

Candy

Candy cases cool to a constant 60° for preservation and display of gourmet candy and chocolate. Candy cases are available in the same profiles and styles, and boast the same features as our refrigerated cases for continuous merchandising and smart style.

Refrigerated

Refrigerated cases cool to a constant 38° to display dairy-based pastries, cakes, sandwiches, and salads. Shorty cases fit in-line flush with counter-tops for convenient transactions and unobstructed view. Curved profile cases offer superior product visibility.

Grab N' Go

Grab N' Go cases are wildly popular to promote impulse sales of prepared foods and beverage. We offer Grab N' Go cases in many styles and configurations and we will customize to the need in your operation.

Heated

Heated cases hold temperatures up to 165° with superior display like our refrigerated and ambient cases. Boost your sales of prepared foods with selection of heated products. Incandescent lighting and humidity control help to heat and preserve your hot food offerings.

Ambient

Ambient cases allow you to present many products that need showcasing but not in refrigerated or heated cases. Sales of cookies, biscotti, bagels, muffins, and non-dairy cakes all benefit from superior in-line display.

Counter

We even offer Countertop-style cases in refrigerated, heated, or ambient for convenient promotion of impulse sales while maintaining counter-top flow of front service lines.

Our display cases are designed to work seamlessly with our Modular Café System
